*Angela***RESPONSE TO RESTRICTION REQUIREMENT**

Sir:

In response to the Office Action of October 15, 2001, in which the Examiner asserts that a restriction is required, Applicants herein elect with traverse, Group II (claims 6-10) for prosecution. The restriction requirement is traversed herein since the inventions are related and it should not be a serious burden on the Examiner to prosecute the inventions of Groups I and II in the present application. Applicant respectfully traverses the Examiner's basis since simply needing to search other classes does not give rise to a prima facie case that to do so would be burdensome, and therefore support a restriction requirement. Also the examiner has failed to establish a prima facie case that the product can be used in a materially different process of using the product.

Respectfully submitted,
